

Dead Devil Society™

→ White Paper ←

ROADMAP:

- The collection is of 10,000 unique ERC 721 **utility** tokens, 1/1 Devils generated from 173,10,30,94,56,440 total possible combinations, hand drawn by the artist (CryptoDevil).
- The Royalty fees will be **4.16 %** on Secondary Sales, from which **30%** will go back to the Community Wallet.
- The Smart Contract is a Random at Mint, meaning the rarity cannot be hacked. Website and Launch Date (In Discord). 20 max per transaction.
- A Total of 30% revenue from the Project goes back to the community in following proportion:
 - ✓ 10% goes to the DDS Collective Fund to generate profit for the holders as well as support the NFT Community.
 - ✓ 20% goes to the community wallet to facilitate collaborations and future collections related to DDS.

Dead Devil Collective Fund

The fund is a collective fund of the Dead Devils' Community. We support the NFT Community by investing into Artists (Small and Big) making Handmade Art. All the profit made from investing in such NFTs goes back directly to the holders of the DDS NFT. The fund keeps funding itself by the way of flipping or holding certain NFTs from the community.

The Process:

- 4 Curators are elected at the start of every Month.
- Each Curator will select 10 NFT Artists every week, the DDS community will vote and choose 5 artists from the list to invest in for the said week.
- (The Listing price and hold time for the NFT shall also be decided by the community vote after the purchase)

Election

In Order to run for the role of Curator for the Dead Devils Collective Fund you should be the owner of at least 5 Dead Devils or be a Mod at the Server.

Voting

Any member of the Dead Devils Society can vote for the Elections/Selections/etc..

The Profit

From the profit made by the way of the DDS Collective Fund : **10%** goes to the curators, **40%** stays in the DDS Fund and the other **50 %** goes back to the holders of DDS NFTs, through a medium and at the threshold decided by the DDS Community (you guys).

Rules

- Each Curator nominates 10 Artist for his designated week. (For example: Curator 1 will nominate 10 Artists to be voted on during the 1st week, Curator 2 will nominate 10 artists for the 2nd week after the 1st week is over)
- An Artist cannot be nominated twice in the same Month.
- A Curator cannot nominate his own collection.

- A curator Can be elected for consecutive months. (Since its democratic)

The Burning Ritual (*Runs for a week after ALL DDS are sold*)

Only applicable for minters

****And limited to 1 Burn per Holder****

It is in the collectors' hands to make their Devil Dead or Undead.

The choice is yours: (Burn or Save)

a) **Burn your Devil** (If you decide to Burn your Devil the following will happen):

- The first 100 burners receive a Framed Physical Print of your burned Devil (It will be 1/1 which will only ever exist in Physical form as the NFT will be burned, (read the burn process for more info).
- You get a “Devil Burner” NFT certificate/badge in your wallet.
- You lose access to future tokens connected to the Devils.
- You still keep your voting rights

b) **Save your Devil** (If you decide to NOT Burn your Devil the following will happen):

- You keep your Voting Rights and the access to future “airdrop” tokens connected to the Devils.
- You can still Purchase a Framed Physical Print of your Devil in the future through Merch Drops.
- You will not get a “Devil Burner” certificate/badge in your name.

The Process:

The Burning will start right after all the Devils have been “Sold Out”.

- To “Burn” the NFT you will send it to the following wallet address:
“0x00000000000000000000000000000000dEaD”.

- Hence, the (Burned Devil) Physical piece to be sent to the Burner will become a separate NFT (in a sub collection) with a “Burned” Badge/Stamp on it. The burned NFTs “badges” might or might not have future utility XD.

Death Note (Bucket List events for DDS)

About 20% of the total revenue from the project goes towards fulfilling the Dead Note. Basically, the extension of RoadMap for the project.

- Get Verified on Opensea.
- Get on Rarity Tools
- Get a M or L estate in the Sandbox / Partner up with the Sandbox
- Get a BAYC Ape in the Community wallet (Bullish on the team).
- Get a ‘Ghxsts’ piece in the wallet (Bullish on froot loop loving Artist from taiwan)
- Support (Buy NFT’s from) the first 100 NFT Artists making Handmade art for the Collective Fund (like, HashBastard, Eski, Stacys, Hammy, Rakshas, etc..)
- Donate money to a Charity, we decide as a community.
- Open a Casino / Community Hub in the Sandbox.
- Work on **Partnerships** to propel the brand further.

The Collabs

Just following the Launch about 25 pieces from your Favorite NFT Artists in Collaboration with DDS will be put up for Auction for 24 Hours!

The Profit from the Auctions will be split as follows:

- 50 % to the Artist, 40% to the Charity (we decide which on as a community) and 10% to the DDS fund which will invest in more NFT artists.

The Collaborative auctions have the possibility of becoming a Monthly or Quarterly event as more and more talented Artists keep showing up in the NFT Community and on the DDS Radar.

The Creator

Hi! I am Yohan Shrivastava or better known as “CryptoDevil” in the NFT Community. I am not anonymous most of you have seen my face.

I started with NFTs a few months back (feels like years) and have made friends with many other artists from the NFT Community.

I am from India, 19 years OLD and I have spent the lockdown learning and breathing NFTs and this space. The DDS project has been months in the making and I am lucky that I found a pair of excellent Developers and friends to help me with it!

I started with my genesis collection “CryptoDevils” back in March. I sold them for 0.0001 Eth each. The last sale for it has been for 0.666 Eth. A NFT project should be a going concern like a business in my opinion. Anytime should be a good time to get In the Devil project is what I strive for.

With the project I want to give the power back into the hands of actual “Artists”. Every piece of art in the collection is hand made by ME and will eventually include pieces by more and more Community Artists which are loved by everyone!

I don’t want to burden the community with coming up with innovative ideas for the brand, I work 24/7 for that (Although every suggestion is welcome and equally important). The innovation should NEVER stop.

The Brand

The DDS Collection comes under the umbrella “Devil” brand.

The Devil Brand includes the following collections: CryptoDevils, BabyDevils, VoxDevils and DDS collection.

Holding an NFT from any of the “***Golden ticket***” collections makes you a ‘investor’ in the brand. And you will be eligible to receive ‘***dividends***’ from the ‘***future projects***’ of the brand directly to your wallet.

There are two **Golden ticket** Collections: CryptoDevils (Genesis) and DDS Collection (This one).

Golden tickets collection is my way of supporting back the people who support and appreciate my work.

For example: the holders of my Genesis “CryptoDevils” (whoever they are when the DDS Sells Out after the launch) will receive **1.5%** (divided in 100) from the total revenue generated from the DDS Collection (from my own share in it).

In a similar way there is a huge possibility that the holders of DDS collection will be eligible for a percentage of revenue from the future projects under the brand.

In my opinion you should definitely be rewarded for supporting and HODLING the NFTs. Holders always Win.
